

# Unleashed!

## Chameleon

Length: 39 feet

Description:

Chameleons change color to outsmart their enemies. To excel on this pattern, bowlers must be versatile in many styles of play.

## Viper

Length: 37 feet

Description: A

viper strikes with multiple angles of attack. This pattern will challenge players to attack the pins from multiple angles to score well.

## Scorpion

Length: 41 feet

Description: A scorpion is dangerous and unpredictable, like this pattern. If you can't find the right groove on the lanes, you'll be stung!

## Cheetah

Length: 35 feet

Description: A

cheetah may look harmless, but this speedster has a dangerous side. So does this pattern - with a fast scoring pace and play near the gutter, there's no room for error.

## Shark

Length: 44 feet

Description: This pattern forces bowlers to play deep inside the center of the lanes, like sharks that troll the depths of the ocean.
